Infrared thermometer “HT-100”

NEW

Non-contact infrared thermometer to take body temperature.
Measurement option in dual mode "Front / object", measurement in 1 second.
F1: Temperature alarm point.
F2: Temperature compensation.
F3: Open / closed warning tone.
F4: Body / object temperature.

Part No. 5903028
Measurement distance: 5-20 cm.
Operating environment: 10-40ºC ⩽80% humidity.
Object: 0-100 ºC.
Body mode: 32-42.9 ºC.
Memory: 32 sets.
Accuracy: ± 0.2 ºC.
Screen resolution: 0.1 ºC.
Automatic shutdown when idle.
Unit size: 88x44x61 mm.
Weight: 160g
